TELEGRAMS

(via Galveston.)

London, 10th—The *Globe*, commenting on Blaine's letter resigning his candidature for the Presidency, says that he saw that he had little chance of being elected. It says that his management of the affair with Chile destroyed all his foreign policy so far as the American continent is concerned.

Columbus (Ohio) 10th.—According to Governor MacKinley's expressed opinion, Blaine's withdrawal favours President Harrison's chance of re-election.

Barcelona 10th.—There has been a fight between the police and some Anarchists, and a woman was wounded with the revolver. Three Anarchists were arrested.

A bomb exploded, killing a man and wounding three.

Montreal, 10th—There is great excitement all over Canada owing to the Bill laid before the United States Congress, abolishing all pensions held by those who are not citizens. Thirteen hundred persons residing in Canada and who enjoy pensions will have to choose between their pensions or a change of residence (citizenship?)

London 10th.—At a meeting held to elect a successor to Lord Hartington (now Duke of Devonshire) as leader of the Liberal Unionists in the House of Commons, Mr. Joseph Chamberlain was chosen for the post.

Paris 10.—In answer to an interviewer who questioned him as to the relations of France with Egypt, M. Ribot said that the French squadron had gone to Port Said merely to compliment the new Khedive, and that the relations between France and Egypt were cordial.

Constantinople 10th.—It is announced that the French explorer, Vidal, accompanied by some Chinese pedlers, has been captured by birgands, near Girghiz.

Rome, 10th—The Pope celebrated a funeral service for Pius the Ninth yesterday in the Sixtine Chapel, it being the 14th anniversary of his predecessor's death. His Holiness pronounced the Absolution in a loud voice.

Madrid, 10th—The four Anarchists condemned to death in Xeres, as leaders of the band that attacked that city last month, are to be executed there to-day. Advices from that city say that there is great interest taken in these executions, and that the authorities have taken extra precautions against disorder. Many wealthy families have left the city. The Bishop of Cadiz obtained an audience of the Queen Regent to ask for a commutation of the sentence. The Queen conferred with the Ministers and asked them to be merciful.

New York 10th.—Up to the present sixteen corpses have been found in the ruins of the Royal Hotel. Forty people who were staying in the hotel are still missing.

Paris 10th.—The French expedition in Senegal has had two combats with the Samaris Chiefs, losing an officer and nine men, with forty three wounded. The enemy had 140 killed and 300 wounded.

Brussels 10th.—Another Socialist manifestation in favour of universal suffrage was held yesterday under torrents of rain. In spite of the bad weather, there was an enormous crowd. When the speeches were about to begin the police appeared and prevented the meeting, which broke up without resistance, singing the Marseillaise and cheering for the Republic.

London, 10th—The remains of Spurgeon have arrived here from Mentone and have been received by an immense concourse that accompanied them to the Metropolitan Tabernacle, where 50,000 people visited them

The funeral of Dr. Mackenzie was also imposing. In the long cortege men of great note in politics and science were to be seen.

Bucharest, 10th—An express passenger train has been burned. Eighteen persons perished in the flames, unable to get out of the carriages, the doors of which were locked.

THE VALUATION TARIFF.

We have frequently had occasion to find fault with the method of valuation adopted in the Argentine Custom-house, both as relates to imports and exports. As a rule, the official values are such gross exaggerations that the trade-statistics published yearly by Government are in a great degree imaginary, and thus the imports and exports are made to figure for much more than the reality. Taking the last three years we find some of the principal imports valued as follows (reduced to English money):—

		1889	1890	1891
		£	£	£
Sugar,	ton	38	38	38
Rice	„	18	18	16
Coffee	„	60	56	56
Salt	„	10	10	10
Yerba	„	30	28	28
Tobacco	„	44	48	24
Paper	„	52	52	52
Steel	„	14	24	18
Iron	„	7	8	8
Wire	„	10	11	10
Coal	„	2	2	2
Beer,	barrel	6	6	6
Wine	„	3	3	3
Kerosene	„	16	16	16

Sugar during the above years, according to the *Economist* prices, averaged £16 per ton, from which we see that the Argentine valuation was 140 per cent too high. Rice was worth less than £8, and hence the Argentine valuation was from 100 to 125 per cent over the reality. Coffee, on the other hand, was under-valued, perhaps out of courtesy to our Brazilian neighbors, but tea was assessed at precisely double the price in the London market.

Salt appears in the tariff at £10 per ton, which is 12 times the value at ports of shipment in England; while tobacco is under-valued. Printing-paper is put 60 per cent too high, and steel and iron are also over-rated. As for beer the valuation is 50 per cent too much, but the most absurd item of all is kerosene which is assessed at 18 times the market value.

Under these circumstances it would appear that the Customs-valuation is fully 50 per cent too high, and that the real value of imports as compared with the official was as follows:—

Year.	Real Value.	Official.
	£ stg.	£ stg.
1889.	21,900,000	32,900,000
1890.....	19,000,000	28,400,000
1891.....	9,000,000	13,400,000
3 years...	49,900,000	74,700,000

Turn we now to the exports, the official valuation shewing as follows:—

Ton	1889 £	1890 £	1891 £
Wool.....	80	50	52
Sheepskins..	60	40	40
Tallow.....	36	24	24
Mutton.....	16	16	16
Linseed.....	11	12	12
Hay.....	6	3	3
Wheat.....	14	12	12
Maize.....	6	4	4

The price of wheat in European ports was in the above years less than £8 per ton, so that the Argentine valuation (before shipment) ought not to have exceeded £7; it was, therefore, 70 per cent too much. Linseed was also valued 20 per cent over prices in England. Some other items were much over-valued in 1889, but not so in 1890-91. We shall probably be near the fact in saying that the export tariff was 40 per cent too much in 1889, and 20 per cent in the years 1890-91: and thus the real value of exports compares with the official as follows:—

	Real Value.	Official.
	£ stg.	£ stg.
1889	17,600,000	24,600,000
1890	17,400,000	20,900,000
1891	16,100,000	19,300,000
3 years	51,100,000	64,800,000

It appears, then, when we come to the real figures of Argentine trade that they wear a very different complexion from what the Customs-valuation would give them. The summary of 3 years shews thus:

	Real Value.	Official.
	£ stg.	£ stg.
Imports	49,900,000	74,700,000
Exports	51,100,000	64,800,000

If the balance-of-trade could be productive of any good our Argentine statesmen would have sincere reason to rejoice, seeing that the value of exports in the above period of three years was much over that of imports, instead of imports shewing an excess of £10,000,000 as the Customs-valuation would make it appear.

In conclusion, we would observe that no good purpose is answered by valuing sugar at £38 a ton, wheat at £12 a ton and kerosene at 18 times its market value. Let Minister Lopez cause the Tarifa de Avaluos to be purged of such absurdities, and the trade statistics of Argentina will then be worthy of an industrious and enlightened nation.

CENTRAL URUGUAY RAILWAY.

SECTION TO THE BRAZILIAN FRONTIER.

On Monday, 8th inst. the concluding section of this line was opened to traffic, to the town of Rivera, in front of the Brazilian settlement of Sant Ana do Livramento, which brings the flourishing province of Rio Grande do Sul within 16 hours' journey of Montevideo. It will be remembered that the extension works were begun some three years ago from Paso Toros on the Rio Negro by Mr. Robert Crawford C. E. in the direction of Tacuarembo, which point was reached early in 1891; and the line was opened to that town on May 1st.

Leaving Tacuarembo, the line continues its northerly course by crossing the valley of the Tacuarembo Chico where a substantial girder bridge of 5 spans of 50 feet has been constructed. Passing through the sandstone hills, by means of extensive cuttings, the valley of the Tres Cruces is reached and the river so named crossed by bridge, at 285 miles from Montevideo. Three miles farther the Bañado de Rocha station occurs and the line enters the ridge of the Cerros de Tres Cruces, working round the base of several high cliffs and finally piercing the main ridge with a tunnel through the solid trap rock. The dimensions of this, the only tunnel in Banda Oriental, are, height 20 ft., width 18 ft., with 4 refuges for workmen at passing of trains; some 25 metres of the tunnel are already lined with masonry of a most substantial character at parts where there is a change of stratum and possibility of future movement. The Government Engineers have reported that they consider the tunnel should be lined throughout, and in compliance with their wishes the work is being done. Emerging from the tunnel, at the North end, a very fine piece of scenery opens, the line skirting the rocks and hills with the valley far below.

The Arroyo Carpinteria is crossed by a bridge of 3 spans. At the Paso del Cerro a small station gives accommodation to the roads leading from the Cuchilla de Haedo to Cuñapirú and the gold district. At the crossing of the Canitas river, the scenery is very fine (305 miles from Montevideo: the valleys Laureles and Buen Retiro are crossed.

There is a fine bridge over the Tacuarembó Grande at Paso Tranqueras, and the station of this name is 325 miles from Montevideo. The immediate neighborhood promises to become speedily settled, a colony having been started by British proprietors. The line continues its course along the Tacuarembó Grande with the fine scenery of the Cuchilla Negra on the left, until reaching the well-known Cerro de los Ministros, and the line runs into the intervening valleys of Costa Cerros, where the stream is crossed by a very handsome double arched sandstone bridge, and of the Cuñapirú, the terminal Station at Rivera being reached at 352 miles from Montevideo.

The station site has been well chosen for convenience of access from the town, with which it is connected by a well constructed road.

The station building is a neat and suitable structure of local sandstone well finished, presenting a most agreeable appearance, and containing every accommodation for the public. On the opposite side of the line are the goods shed, locomotive shed, tank, turn-table, etc.

The great importance of this line is to open up the department of Tacuarembó, which (including the new department of Rivera) has an area of 11,600 sq. miles, or nearly equal to that of the Kingdom of Belgium, with a scattered population of 24,000 souls. One-fifth of the department is owned by Brazilian estancieros. Agriculture is almost unknown, but the pastoral wealth is considerable, comprising 1,050,000 cows. 70,000 horses and 180,000 sheep. The assessed value of property in 1884 was $33,100,000, or £6,800,000 stg.

The gold-fields of Cuñapirú were discovered in 1859, and worked by Goyo Suarez and Mr. Rogers down to 1870.

The town of Tacuarembó or San Fructuoso has 3,000 population and is the only town of importance in the north of the Republic of Uruguay. The terminus of the railway is 70 miles further, at Rivera, a village on the Rio Grande frontier, the Bagé railway connecting it with Pelotas and Port Alegre.

LATEST FROM MONTEVIDEO.

Feb. 10th.

A good many arrests were made yesterday in connection with the subversive movement nipped in the bud by the prompt action of Government. The rumors flying about in regard to mutinies etc. were all exaggerated, but that something was up there can be no doubt. Several sergeants and soldiers are under arrest. They are to be tried by court-martial. The President is preparing a full account of the whole affair for Congress, and until that account be published it will not be possible to get at the details of the movement. A tramway guard appears to be mixed up in the affair.

The news of the discovery of this military conspiracy caused a panicky feeling on the Bolsa and stocks fell.

Amongst the passengers by the Aconcagua, at present undergoing quarantine, is Mr. Claudio Vicuña, president elect under Balmaceda. Mr. Vicuña goes to B. Ayres.

A very sad accident occurred this morning. Young Mr. Herber, a nephew of Mr. John Jackson, was visiting the palace at present in course of construction in the Plaza Cagancha, when his foot slipped and he fell through an opening into the cellar. He was picked up dead. The body sustained terrible injuries.

Telegrams received yesterday report disturbances in Rio Grande. Mr. Silveiro Martins arrived in that state some days ago with a view of taking over the governorship, and as he is violently opposed by the Republicans, it is probable that his presence is the cause of the disturbances.

PROVINCIAL NEWS.

The latest news from that politically congested province, Mendoza, is that the Union Civica Nacional is determined not to meddle in politics for the present. This move is meant to simplify the Interventor's task of putting things straight. Mr. Diocletian Garcia, as we had the great pleasure of stating in our last, has a good chance of becoming Governor. As for Governor Ortiz, his name is never heard; he has dropped out of the public memory as quickly and as silently as ex-Governor Guiñazu and his rather funny manipulations of the State cash. Garcia has the support of the Radical Videlistas, Liberals and Ortegistas, all honourable gentlemen intent on securing the good of the province. If the combination be carried out, all is saved; that is, there will be no heads broken, for financially all is lost. Mendoza, like the other provinces, is in a semi-demi bankrupt condition. But the constitution may come to the ground, on account of the Ortegiustas, not that they love Garcia less but that they love Chavarria more. The Lencinistas—a fraction of the Radical party—won't have anything to do with political conciliation etc. They announce their intention of fighting – in a peaceful way of course – to the last vote for supremacy. Already they are assembling their followers and speechifying themselves into the conviction that they are going to win the day next Sunday. Mr. Lencini, the head man, is, we believe, in prison. He is supposed to have been implicated in the assault in Mr. Suarez's house. The party is without a head—there are a good many parties in the same boat—but when the head is wanting, the heart dictates. Who the heart is we can't make out, but we hope a political aneurism will not supervene in the excitement of the psychological moment.

There was no election last Sunday in Catamarca – the cradle of the Irigoyen candidature. The local Executive fearing that the excitement of the Catamarqueños would cause ebullition of some sort, wisely postponed the election to the 21st, in the hope that during the interval excitement will subside. There is a big row going on at present in Catamarca, much to the delight of the old crusty bachelors up there. Owing to some hitch, no one can get married either civilly or by the church. The ladies have signed a protest, and the Executive has graciously condescended to look into the question and remove the present difficulties.

The Cordobese Radicals are in a high state of glee, as they entertain the fond delusion that the Radicals have won here. So far no one has gone to the trouble of undeceiving them, and the result is the "confiteros" there are selling their best Rosario champagne at political prices—that is several hundred per cent more than the frightful beverage is worth. Luckily money is scarce and the Rads must soon put a stop to this jollification, which, if continued, would soon wipe them off the face of the globe.

We note by our Entre Rios exchanges that the municipal council of Villaguay have deposed the Mayor without resorting to revolution. The local Mayor was not over-popular and the council were determined to shew that they counted for something in the handling of the cash and destinies of the town.

Rosario was steeped in alarm on Monday night, owing to a group of young fellows running about the streets with firearms and cheering for themselves. The police managed to catch the youngsters and put them in jail.

LADIES' LETTER.

(From our own Correspondent.)

Paris, 9th January, 1892

Public interest is rapidly extending in favor of the organization of Cookery Schools. The Culinary University may be regarded as situated in the Rue Bonaparte. Professor Driessens is the right man in the right place; he has just opened an evening class in the large factory suburb of St. Denis for the benefit of work-girls, and who, follow his practical lectures for two hours, eight to ten. The subjects treated bear upon the preparation of meals suited to the condition of life of his pupils. Inattention is unknown; the girls take note of the directions and hints for the preparation of homely dishes, at once cheap, appetizing and digestible. For rostrum, the professor has a large kitchen table, on which lie the materials to be cooked. Calf's liver "sauté," with mushrooms, formed the subject of the lesson I was present at; the professor indicated how to select the liver, then how to cut it in eye-pleasing slices, to toss it in the pan, next to choose the mushrooms, and how to recognize their freshness and if edible; then came the turn for chopping the parsley, the thickening sauce etc.

Pupils are called up to try their prentice hands at the several operations. The cooking is by gas; one girl is told to light the range; she turns on the gas, then proceeds to strike a match; the professor seizes her arm and draws attention to her carelessness that would involve an explosion; other girls are cutting up the parsley, liver etc. The class is invited to note the time for adding the various ingredients and to complete the cooking. The next subject is the preparation of omelettes, how to select the eggs, to beat them up, and the requisite quantities of condiments to add. The pupils and auditors are presented with specimens of the savoury dishes. During the lecture in action the pupils are invited to ask questions, and at its close to figure up on a black-board what the cost of the dishes prepared amount to.

In Paris and the larger provincial towns they are young women who have a monopoly of the business of commercial travelling for certain kinds of goods, as jewellery, apparel, stationery etc. They succeed in obtaining orders for their fabricants or firms from the retail dealers more readily than men. They have generally a porter to carry their sample boxes. They are paid 3 francs a day, actual travelling expenses defrayed, plus a commission on the value of orders received. The mesdames engaged in this new opening for the employment of women have so increased in numbers that they contemplate forming an association of their own, having connected therewith a technical school. Female labor is being largely employed in the printing trade; in walking along the streets, not a small printing office if peeped into, but will reveal a dozen of girls setting up type. There is one office I have been told worked by a printer's widow, who, with her female assistants, live very comfortably by dividing her earnings. The Government could find further employment for woman if it encouraged female teachers to conduct national mixed schools rather than men. And the happy influence of woman would tell favorably on the formation of the character of the boys.

I asked some children in their seventh summers what was their opinion about the season's toys, whether as viewed from the big shops, or the sellers camped along the Boulevards; they agreed that nearly all the toys were the same as last year. And the opinion is true. But there are some novelties, ingenious of course, and cheap as a matter of necessity; for example, the red wind mill with its jolly miller ascending and descending with bags of flour; the Russian sledge drawn by rein-deer or pushed by elegant skaters; the little captive balloon that rises upwards; four ships sailing round a rock, representing the Panama Canal; rabbits that skip humorously while working their ears; a little doll skipping along a rope; a gardener wheeling a barrow; croaking frogs etc. etc. The general price of these articles is one franc each. Visitors from England, America, Australia etc. tell me that these toys do not find their way to them. If so, more's the pity.

The Christmas Trees were numerous this year, those connected with the Alsatian fetes especially, where several hundreds of children were entertained, and allowed to pull and to eat the unforbidden fruit. Subscriptions were liberally contributed to providing Trees for the poor and needy children; from a branch they received a package of sweets with a ticket entitling them to some warm clothing. The oddest Christmas Box was that given by an old gentleman, cured of his aches and pains, of a pot of ointment effective against rheumatism.

A few "in memoriam" remarks on the two days skating, and likely all that Jack Frost will grant us this season. The general colors of the dresses are in Russian green, brown and blue cloth, heavily trimmed with fur; seal skin jackets had all astrakan collars; the ladies mustered strong and glided swiftly over the ice, or described graceful mathematical figures. It seems to have been a pass-word that only English was to be spoken; at least that only could be heard. The rooms of the skating club were comfortably fitted up, and there was no stint of good things. Ladies—mammas and aunts especially—patronized the cozy wicker arm-chairs, pushed along on their red wheels; they tried to keep their girls in view during the parties of combined skating. As a general remark the ladies proved to be more brilliant skaters than the gentlemen. Some gentlemen organized a game of hockey but it had not many admirers. Many papas devoted themselves to teaching their little ones their "first steps" on the ice, and to the stirring strain of the Gipsy string band and the warmth of blazing braseros.

Exhibitions, like the poor, will be always with us. Some shop-keepers have rented the unoccupied Eden Theatre and converted it into a co-operative shop where they will have stalls for the display of their merchandise, and the sale of same. It is proposed to concentrate trade novelties as they are brought out, and to induce the fashionable, the buying world, to come and see; concerts and five o'clock teas will be given. An admission fee will be charged. The speculation is not very hopeful and can hardly compete with the "Tea Rooms."

NEW ZEALAND AND RIVER PLATE MORTGAGE COMPANY.

The eighth annual general meeting was held at Cannon street Hotel, under the presidency of Sir William T. Power.

The Chairman said: Gentlemen,—It is a great satisfaction to your directors to meet you here to-day. In ordinary times, when everything has been going well, it has always been a pleasure to meet you; but after passing through a period like the one which has just expired, we experience a feeling of relief as well as pleasure in being able to come before you and state explicitly what the results of the working of the Company for the year now ended have been and what our position and prospects are. Turning to our mortgages at the River Plate we can tell you that, considering the circumstances, the mortgagors are paying up very well indeed, and showing an honest desire to fulfil their engagements, which leads us even at the present time, when such unforeseen events have happened, to repeat the opinion we have before expressed, namely that the River Plate districts afford a safe and profitable field for mortgage business. In a few cases we have had to initiate legal proceedings, but in only two of these have matters gone as far as a sale. Previous to the revolution and financial crisis at the River Plate, we had been moving considerable amounts of money from New Zealand to the River Plate, and in the usual course of transit these sums had to remain for some period in London, where they accumulated when the output was checked. Also, soon afterwards, considerable amounts of debenture money began to fall due and, in consequence of this circumstance, it was necessary to have much larger investments in London than would otherwise have been required. The object of your directors has always been when making these temporary investments to obtain securities which will as far as possible yield to the company what it pays for its debentures. In every year up to the last this had been accomplished with entire success; but there has been, as you know, an extremely heavy fall in Argentine securities. All the Argentine securities which the company hold appeared at the time of purchase to be sound investment securities; in fact, they are precisely analogous in their nature to those we have always held, but those held before we extended our operations to the River Plate related to the colonies, whilst the others relate to the Argentine Confederation. All Argentine securities are now in a very peculiar position. People do not care to buy them. A few months ago we wrote to Mr. Cox, our manager, and Mr. Robert Ramsay, our local director, requesting each of them to let us have his views separately, dealing specifically with all the points raised, and with any other which might appear to need discussion. We have received answers to these letters, which are encouraging. I may observe that we lend entirely on a gold basis. As to the general position of the Argentine Confederation I am not going to indulge in prophesies of any kind, and I freely admit that we shall experience a feeling of relief when the Presidential election is satisfactorily settled. I may say, however, that we hold the views that the wealth of a country is to be gauged by its products and resources, and its probable progress or decline is to be mainly tested by their increase or decrease. Now, it has been estimated, on reliable figures, that the agricultural products this year will realise about £16,000,000, and the pastoral £21,700,000, making altogether some £38,200,000, and that out of this sum £5,000,000, of the agricultural, and £12,000,000 of the pastoral or a total of £17,500,000 will be available for export. I have endeavoured to place our position and prospects fairly before you, and you will now see the full force of that paragraph in the report which states that we cannot regard any considerable portion of the sum of £90,000 as lost. There is a reserve fund of £25,000 in cash, there will be the new reserve of £10,000, and some £3,500 carried forward, making in all some £38,500. Deducting this from £90,000, £51,500 is left, or about a quarter of our paid-up capital, so that our £1 paid shares should be worth nearly 15s. This is on estimates, which are at all events not sanguine, and yet our shares are depressed much below this figure. It is obvious that there are other reasons which affect the mind of shareholders, and there is, I think, no doubt that the chief one is the fear of calls. The directors propose to take advantage of Article 15 of association, and to offer to shareholders option of making certain payments in advance on shares. I will propose—"That the report and statement of accounts be adopted and circulated among the proprietors; that £10,000 be carried to a separate reserve fund (to be termed the "Detained Dividend Fund") and invested in Consols; and that the balance of profit, amounting to £3,543 7s 6d, be carried forward to the accounts now current." (Applause.)

Sir Edward W. Stafford, G.C.M.G., seconded the resolution.

In reply to a Shareholder, the Chairman said that in round numbers they had £340,000 invested in New Zealand, and £476,000 in the River Plate.

The resolution was then adopted unanimously.

Sir Edward W. Stafford and Mr. H. J. Bristow were then re-elected directors, and Mr. H. J. Bristow re-appointed auditor.

THE URUGUAYAN CONFISCATION.

ITS REJECTION ASSURED—QUESTIONS TO BE ANSWERED—DECLARATION OF URUGUAY GOVERNMENT.

To the Editor of *The Financial News.*

Sir,

The meeting of the representatives of the trust companies and guaranteed railways yesterday has buried the already dead conversion scheme. "Requiescat in pace"; peace be to its propaganda. This dreadful attempt to sacrifice bondholders, in order to free two or three financiers from a disastrous contract, and to turn their losses into profits, teaches us many lessons and removes some false impressions we had laboured under. We find that the Uruguayan Government is not to blame for what has occurred, as can easily be proved: —(1) The Government exacted that the conversion scheme should be accepted by a majority of the bondholders; (2) after the passing of the law the Government telegraphed to its representative in London, asking for a meeting to ratify the arrangement, and received a reply stating that the Council of Foreign Bondholders and the financiers did not wish to call another meeting; (3) during the discussion of the law in Montevideo, the President sent his Finance Minister to the Chambers to state officially that if the majority of the bondholders did not accept the scheme, the law would not be enforced.

The following extract from the official report on the debate in the Senate, taken from *La Razon* of September 30 (also in *El Siglo* of same date), settles this much-debated point most effectually. "Finance Minister: Various senators have said that the holders of the Unified Five per Cent. Debt cannot—certainly will not—accept the proposed arrangement. My answer is that the basis of arrangement is that it be accepted this by bondholders representing more than half of the Unified Debt. Señor Castro: Half is not sufficient; it should be at least three-fourths. Finance Minister: The Government thinks that with the assent of half the bondholders there will be a solid and efficacious base for the arrangement. The Executive Power is not obliged to pay any commissions or expenses if the consent of at least half the bondholders is not obtained, and this has already been accomplished, according to telegrams from Dr. Ellauri." This statement of the Government saved the Bill in the Senate, otherwise the confiscation scheme would have been killed then.

Who authorised Dr. Ellauri to telegraph to his Government that the consent of more than half the bondholders had been obtained? He does not speak English, and was never in contact with the bondholders, and would not know one if he saw him. He was deceived by somebody.

What does Mr. Noetzlin say to the declarations of the Uruguay Government? He should obtain a declaration from the President that the Finance Minister was not authorized to make that statement—that he simply deceived the senators so that they should vote the obnoxious law. After what Mr. Noetzlin stated in his letter of December 15 to *The Financial News*, he cannot remain silent. He owes this to the Council of Foreign Bondholders, to Dr. Ellauri, to the bondholders, to the public. Let us have an explanation.

In this melancholy conversion scheme all connected with it appear to have deceived each other. The Government deceived Congress, Dr. Ellauri deceived the Government, the Uruguay Committee deceived Dr. Ellauri, the Council of Foreign Bondholders deceived the Committee, Mr. Noetzlin deceived the Council. Who deceived Mr. Noetzlin? It's like the house that Jack built. The following telegram was received to-day:

"Montevideo, January 8th.—Custom house produced last month £125,000 Brazilian Loan and presupuesto (budget) four months unpaid."

This telegram shows that the Government cannot pay 3½ per cent. to the bondholders and railways this year, and if the bondholders get something, the railways have no chance of getting one penny under the confiscation scheme during 1892. During the month of December, 1890, the Custom-house produced $885,677, last month it only gave $587,500. We must not forget that the Brazilian Loan is not to be converted, and it must be paid before any other; and it is now four months in arrear.

The Council of Foreign Bondholders inform the papers that their agent in Montevideo, the London and River Plate Bank, is collecting daily 45 per cent. of customs, and that one day $12,400 was received. What about the other days? The London and River Plate Bank has no right to collect anything; it simply receives what the officials choose to send—nothing more. Will the Council inform us to whose order is the money deposited? I hear that it is a conditional deposit.

The questions I have asked are not for my own benefit—the press and public demand an answer.

The first point of the resolution of the Trust Companies is seen in the rise of the Six per Cents. to 40. We all know that if the confiscation scheme be defeated the Six per Cents. will be worth from 50 to 60. Three years from now the country will have completely recovered from the banking crisis, and will be in a position to resume the payment of full interest on its bonds.

RIVER STEAMERS.

Mr. Editor,

Permit me to call the attention of the "talented managers" of river passenger steamers to the truly disgraceful and disgusting state of their boats, making life impossible on board. If there are passengers and passengers there should be places and places, and those willing to pay for a little comfort should be able to get it. Why not have old pensioners in charge, as they have in railway stations, and charge a penny? Many people would willingly pay a dollar, so that it need cost the company nothing, and there is no excuse for its not being done at once. It is this alone that prevents many individuals going in these steamers for any journey over one night. Some of these steamers, I am sorry to say, fly the British flag, and it is disgraceful to see it in such a connection.

Yours respectfully,

Viator

RAILWAY ITEMS.

The Attorney-General has issued a report on the application of the San Cristobal-Tucuman Railway Company for payment of guarantee. The Attorney-General is of opinion that as a basis for the liquidation of the guarantee in question the official measurement made by the Engineers' Department must be taken into account.

We take the following from the *European Mail* received by the last mail:—

The question of Argentine railway amalgamation has been receiving some attention since our last, and several gentlemen largely interested in the companies have expressed their disapproval of the plan. "A large holder of Rosario Railway stock" points out that although it may be to the interest of shareholders in the Central Argentine Railway to amalgamate, it certainly is not in the interest of the shareholders of the Buenos Ayres and Rosario Railway. He believes that "serious objections will be made by all holders of Rosario Railway stock who are not also holders of Central Argentine Railway stock." This opinion is endorsed by another holder in the Rosario Company, and it remains to be seen whether the Central Argentine directors cannot make some economic reforms which will enable them to conduct their company profitably on its own basis.

A telegram received from Concordia yesterday reports the robbery of the safe of the North Eastern Railway. The safe was subsequently found on the bank of an arroyo, but not a trace of the $40,000 it contained.

EDITOR'S TABLE.

This is a gloriously changeable country. On Tuesday everything rose—the sun, the Gold Eagle, and the price of beefsteaks Yesterday "down" was the order of the day. Rain and the G.E. came down; cooling drinks went down the public throat owing to the awful heat, and the sun went down with a black spot on his disc as big as the head of the Ethiopian who personated a well-known lawyer at Sundays' elections. Umbrellas alone rose What does the black spot on the sun mean? That's the question. Perhaps Dr. Thome will tell us something about it.

There is a big treat in store for those of our readers who will avail themselves of an opportunity seldom offered. The celebrated war correspondent and special artist of the *Illustrated London News*, Mr. Melton Prior, who, in his short stay amongst us has made a host of friends, has kindly consented to give a lecture in aid of the funds of the British and American Benevolent Society, his theme to be on the Soudan campaign and Nile Expedition, when the British troops went to the relief of General Gordon. We are informed that this is the same lecture Mr. Melton Prior gave before H. M. the Queen and the Royal Family. It will be illustrated by lime light views of his original sketches. The experiences he can relate will be thrilling. The whole English speaking community will look forward to the pleasure of hearing him.

The numerous friends of Mr. John Jackson of Montevideo will learn with deep regret the calamity that has befallen his family in the sudden death of his nephew, Mr. —— Heber, who was looking through a new house at Plaza Cagancha, when he fell into a cellar and was instantly killed. Deceased was, we believe, heir to the bulk of the properties of the Jacksons, being the only surviving grandson of the founder of the family. Mr. John Jackson has no heirs; his brothers Peter and Albert died some years ago without issue. This renders the present accident the more distressing. We need hardly add that Mr. Jackson and his sisters have long been famous for their works of benevolence at Montevideo.

The materials for a patriotic "pronunciamiento" seem to be fermenting across the water, and a jolly fine row may begin at any moment and upset the Confiscation scheme hatched in London with so much trouble. This is the liveliest of Continents, at least the Southern part of it.

An English resident at the Tigre claims $10,000 gold from the War Office for seizing his steam pleasure launch the other night for service during the scare, and running on the coast and making a wreck of the beautiful little craft. There is nothing for the W. O. but to plump down the "oro sellado" at once, and with a good grace.

There was a strike of the workmen and a row at the Quilmes meat factory on Tuesday, and a little shouting and shooting ensued. The men say they cannot live on their present wages.

Sheep-farmers say that they cannot sleep at night owing to the prolonged drought, which, if it continue much longer, will mean blue ruin for them. Our upside-down barometer is steady at "Very Dry," so there is a chance of a lot of "agua" from on high.—P.S.—We wrote the foregoing at dawn. At night the "buckets" came down. Another barometrical victory.

What a lot of people would like to be in the New Year's patent-leathers of the three lucky gentlemen referred to in the following paragraph from the *Montevideo Times*. Mr. Trimble appears to be a special pet of Dame Fortune; bearing out the old adage that "it is better to be born lucky than rich":—

"The 50,000 gold prize of the Lottery played on Saturday, won by ticket No. 2518, was shared by three well known members of the English community, Mr. J. Connor, partner in J. J. Hore and Co.; Mr. E. G. Greenwood of the London and R. P. Bank, and the broker Mr. James Trimble. This is the third time that the latter gentleman has been thus favoured, having drawn $20,000 some two years ago, and $25,000 several years previously. He it was who selected the lucky ticket on this occasion, the vendor being a street urchin at Pocitos. The many friends of these gentlemen have not been slow in offering their congratulations, to which we now add ours."

There is an evident muddle about what the head of the National Railway Board was supposed to have said to Mr Roberts, ex-Manager of the Argentine Great Western Railway, as to the Government wishing the Guaranteed Railways a speedy appearance in the Bankrupt Court. The facts of the case, as we gave them in this column more than a week ago, are: Mr. Roberts told the correspondent of the London *Standard* here what Dr. Araoz had said to him; the correspondent wrote it to his paper his paper published it, the *South American Journal* copied it, and we, the B. A. STANDARD, reprinted it from the *S. A. J.* Dr. Araoz declares that he "never said no sich thing"; so the public now look to Mr. Roberts and the correspondent of our London "tocayo" to rise and explain. The *S. A. J.* and ourself are quite out of it, and were never in it. Let no superfine reader say that this is a "bull"; we weighed both the pen and ink before writing it.

What pranks Puck plays with telegrams while carrying them round the world. The message announcing that Mr. Irving's son had wounded himself came from Italy, but the accident occurred in Green Erin, as can be seen in the following paragraph from a London paper: "We regret to learn that an accident happened at Belfast yesterday to Mr. Irving's son, a member of Mr.

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.
Wednesday, Feb. 10th.
The gold market ruled about 50 cents to the ounce weaker than yesterday, but there was a very steady feeling in the speculation all morning. The demand for gold on time continued to-day; in view of the scarcity of paper money gold is being passed from month to month at fair rates of interest, and a large business is reported all round in this respect.
Fourteen thousand ounces changed hands for cash: the price opened at $61.60, rose to 61.70 and closed at 61 50 say 277½% premium. Sixteen hundred sovereigns were sold at $19.10, say 279 % premium. The market was steady in spite of the fall in price.
Patriotic Bonds were dull, but firm at 57.20 to 57.50. Catalinas were weak at 6.80. About thirty thousand National Cedulas Series A gold changed hands at 2/6, say one point under last operation. National Cedulas B were quoted at 85. La Plata Cedulas were very weak; M and O were stationary at 26.70; N fell to 26.60 and P to 27.
Exchange was weak. The rate on London ruled nominal at 47¾ to 48d. Francs opened at 5.06, but fell to 5.05 on Paris direct. Francs at sight were done this morning at 5.01—no more to be had.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

The R. M. S. Magdalena landed at Montevideo £100,000 for the London and River Plate Bank, £36,000 for Bemberg and Company, £25,000 for E Tornquist, and £36,000 for the British Bank of South America. In her gold consignments for this port we note £30,000 for the German Bank, £60,000 for E. Bunge, and £40,000 for E. Hardt. We understand that the Magdalena landed some gold at Rio also. The bulk of this gold is shipped from London to the Plate to meet the long expected pressure in our exchange market; but it happens that the gold actually arrives at a moment when exchange is tottering at 1% above par, when bills are scarce, and the consignments must leave a heavy loss to the shippers. Not only bankers, but merchants and discounters have ordered shipments of gold from abroad. "Trop de zèle"—rather too much speculative zeal is evident in these attempts to help the exchange market; this speculation has shot far beyond the market, and it makes one smile to see steamer after steamer arriving at a moment when the exchange rate is tottering and far from warranting imports of specie. The bankers set the example; the smaller fry followed, and all lose in the operation. This is another lesson to financiers here and abroad who gauge the market and its requirements over the books on their desks and the turn-over at their counters.
In the month of October, when the ounce rushed to 75$, when Roca and Mitre resigned, and exchange was quoted in the vicinity of 45d., the wiseacres here and in London went off their heads, more or less in the same fashion as our Finance Minister and Mr. Lidderdale, who calculated the average gold premium of 1891 at 150. Voluminous banking correspondence from here and the proverbial financial instinct or intuition of the London banking circle generated the syndicate to relieve the glut of exchange bills in the Plate, a result considered inevitable in view of the proportions of the clip and crop. In reality, the enormous rise in gold in October was the effect of a political panic and speculation; the moment that panic subsided the gold premium rushed down 100 points; since that fall the gold market has ruled steady and exchange, instead of being superabundant, has been steadily shrinking until to-day when we see a market swept clean of bills; meantime, the millions of our London friends arrive by every mail, and it must be confessed that the shining metal fails to produce the slightest impression on the march of gold, although it may tend to increase the perplexity in exchange and increase losses attending the shipment of specie at present. Buenos Ayres has taught London another financial lesson.
Just as wiseacres have been utterly mistaken in their financial horoscope, they threaten to misunderstand the political eventualities of the near future. One and all of the ilk believe that the Presidential question will lead to an appreciation of the currency; under satisfactory settlement they understand some agreement whereby a revolution can be averted and peace ensured for a few years. Meantime, it is opined in other quarters that no matter what satisfactory political settlement may be secured, gold will rise and paper will fall, until some energetic hand take over the reins, put an end to the issue of paper money, reduce the circulation, and compound with home and foreign creditors. To effect such a sweeping reform it is necessary that a man of great energy and will take the reins of power and defeat the many interests vitally involved in a continuance of the present ruinous policy of paper issues and moratoria. The wiseacres, however, maintain that everything will progress smoothly under the present policy of

This energetic policy of the Government has caused dissatisfaction in some quarters, and many apprehend that Paraguayans settled on Argentine territory, are hatching a revolution. All the recent difficulties that arose between the Government and the British railway company that runs the line between Asuncion and Villa Rica have been amicably settled, and there is a general opinion that the company in London had not all the right on its side. Two passenger and one goods train leave Asuncion daily for Villa Rica; on Sundays and feast days excursion trains are run and crowds fill the cars; the company are doing a large traffic business. Mr. Featherstone is still in Asuncion representing the Land Company. Mr. Duff, of the railway, has his head-quarters in Villa Rica. Our old friend Commodore Davison, who figured in the American Civil War, in the Franco-Prussian War in the Baltic, and for so many years in the Argentine navy and its torpedo department, is still in his baronial home of Villa Rica, where his hospitality is proverbial. Mr. Busk, so long connected with Paraguayan enterprise, has settled in London. The National Bank has now sole control of the issue of paper and has amalgamated with the Commercial Bank. The Paraguay Bank of the River Plate is doing a small discount business. The heat in Asuncion is great, and Consul Stewart finds the temperature here very chilly. We wish the popular Consul a pleasant stay in our midst and hope he will be induced to prolong it.

The cheques of the Provincial Bank improved to-day, closing at 42 % discount. National Bank cheques were done at 271/2 % discount. The Bonos of the La Plata Mortgage Bank closed at 12—say 88 % discount.

Discounts continued very difficult to-day. Exchange was quoted nominal and weak during the afternoon.

A few shares of the Banco de la Bolsa changed hands to-day at 37.

The Pacific steamer Liguria, from Valparaiso, arrived at Montevideo to-day, and will leave to-morrow for Europe.

The gold market ruled weak at the second ring; about eight thousand ounces were sold for to-morrow: the price opened at 61.40$, fell to 61.20, and closed at 61.40. Fifteen hundred sovereigns were sold at 19$ and 19.05. La Plata Cedulas continued weak.

The Committee of the City Improvement Works have sent in to the Ministry of Interior their monthly budget of expenses, $60,160 m/n paper and 14,050$ gold. This does not include 720$ m/n per month for sundy expenses.

Mr. G. A. Cranwell has brought a law suit against Mr. J. Pietranera for possession of part of an area of land on the Calle Santa Fe and Arroyo Maldonado. It seems that Mr. Pietranera purchased the land from Mr. Max Rodriguez at the price of 6.85$ m/n per square yard, but the purchase was made for a syndicate of which Mr. Cranwell formed part in the proportion of 5%. Part of the lands were subsequently sold by Mr. Pietranera at auction, but as no accounts were rendered Mr. Cranwell thinks it high time that he should be awarded his proportion of the land and proceeds of sale. Dr. Delcasse is Mr. Cranwell's lawyer in the suit.

The Attorney-General has approved the proposed modifications in the statutes of La Italia Reaseguradora Insurance Co.

The following report on the state of the freight market is from Messrs. Williams & Co.'s circular, and will be read with interest:—

Steamers—Owing to the continued depression in European markets for all our products, freights have declined in a more serious manner than could have been expected. The shipments of wool have been so small that the regular lines have been unable to maintain our last month's quotation of 20 francs, and outsiders have accepted 16 to 17½ fcs. as the best obtainable. Wheat and linseed have been shipped at 20 francs per ton for Antwerp and Dunkirk, although the nominal rate to-day is 25 francs. For full cargoes of wheat from Rosario, merchants find themselves fully supplied with tonnage for all their requirements, and steamers lately arrived have had to accept considerably reduced rates in order to induce merchants to charter. We quote to-day 24s nominal for prompt steamers from Rosario to St. Vincent for orders, 28s for March. April tonnage with a very slack demand.

Prospects—This paucity of business at the present season must per force bring about a smart reaction in the future; it may probably be postponed for a month or two, as the coming elections may cause such fluctuations in the value of the currency that business will be exceptionally difficult, but for April and May we think that a better demand for tonnage must rule. It may be noted that although the demand for tonnage during the last two months has been much below the general expectation, all the steamers that have come to the Plate have left with full cargoes of produce; none have left in ballast.

Sailers—With the exception of a few charters for linseed, there has been little or nothing done in cereals; merchants having supplied themselves with tonnage beforehand. 24s wheat, 25s linseed is nominally the rate from Rosario; 2s more from Santa Fé; 17 to 18s from the Boca. A few vessels have been taken up for wheat from Bahia Blanca, and we expect that a better demand from thence may shortly spring up. Rates for hay from Rosario to Rio Janeiro and Santos have improved, and the demand continues. There is but little offering at the moment for the United States. Vessels suitable for salted hides are now looked for, and we expect that the scarcity will be shortly felt and rates advance.

Charters effected in Montevideo during the month of January by Williams and Co.—

TO DRINKERS OF GENUINE SCOTCH WHISKY.

It is a fact that the best Scotch Whisky has now arrived in this country, and the following lines from BON GAULTIER'S BALLADS, viz: "THE MASSACRE OF THE MACPHERSON" (from the Gaelic) will prove that the "GLENLIVET" Whisky has always been to the fore, and its superiority will enable it always to maintain its position.

"Fhairshon had a Son
"Who married Nosh's Daughter
"And nearly spoilt ta Flood
"By drinking up the water
"Which he would have done
"I at least believe it
"Had ta mixture been
"Only half "GLENLIVET." "

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by stallions, bulls, etc., imported direct from England by the owner, it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.
Nearest Station (under a league from the Estancia) EMPALME PEREIRA F.C. a La Plata from whence animals can be despatched to any part of the Republic.
Animals of the same breeds are obtainable at the Estancia La Favorita. Apply to the Mayodomo, Almacen La Suiza, Carrera Tandil a Necochea, or to Hotel Dhees, Tandil; also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina, F.C.O.S. Rosario.

EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

Relieves the feeling of lassitude so common in summer, and imparts vitality.
Used in place of lemons or lime juice it will harmonise with such stimulents as are necessary to take.
A teaspoon added to a glass of water, and sweetened to the taste; will be found refreshing and invigerating.
May be obtained of all Chemists or Druggists.

AUCTION BY MAXIMO GOWLAND
(With intervention of Lloyd's Agent.)
The Undersigned will on Wednesday the 10th inst., at 2 p.m. sell by public auction at the Barraca Peña, Furtado Hnos. (close to the Railway Station,) for account of whom it may concern, and with the intervention of Mr. Philip Dorman, Lloyd's Agent, the following parcels of
WHEAT
viz:—
Ex-British s.s.
"HYDARNES"
Homeward bound from Rosario.
1,200 BAGS WHEAT
(more or less), damaged by fresh water.
The above parcel represents part of the cargo lightened from the s.s. "Hydarnes" at Martin Garcia Bar by the Lighter
"FELIX FRANCISCO,"
which craft subsequently sprang a leak, and such portion of her cargo as resulted damaged therefrom has been discharged into the aforesaid Barraca. The grain in question will be sold in Bulk, the greater portion having been landed in this condition.
For further particulars apply to the auctioneer, Calle Bolivar 351, or to Lloyd's Agent, 195 Reconquista.

Excepcional Remate de
2,000 Esplendidas Vacas Durham, mestizas
con novillada y con 30 toros padres puros, procedentes del renombrado establecimiento "Miraflores," propiedad del Señor Don Exequiel Ramos Mejias. El remate tendra lugar en las inmediaciones de la estacion Julio Arditi (F. C. de la Magdalena.)
El Domingo 21 de Febrero
a la 1 de la tarde
Las vacas que ofrecemos en venta son especialisimas y pocas veces se presentan ocasiones como estas de hacerse de inmejorables planteles.
Estas haciendas proceden de un rodeo de vacas mestizas que formó a eleccion el Sr. Ramos Mejia y cuyos novillos se han vendido siempre a precios muy elevados, habiendose obtenido hasta 100 pesos cada uno.
Hace muchos años que estas vacas se han reproducido con toros puros de inmejorable sangre y anualmente se han hecho depuraciones y limpiezas, dejando solo lo muy bueno y sacando lo inferior para consumo o para venta.
Los 30 toros son puros por cruzamiento, pues tienen 50 años de mestizacion, siempre con inmejorables reproductores de las buenas cabañas de Inglaterra.
La venta será en lotes para planteles al gusto de los interesados.
Un tren expreso saldrá de la Estacion Central a las 10.25 a.m. regresando una vez concluido el remate. Mas datos a nuestra casa Alsina 480 y 482.
